TEACHING EXPERIENCE

University of Montana, School of Journalism

2026

Teaching Assistant - Media Ethics

- Supported instruction and classroom discussion on ethical decision-making, minimizing harm, vulnerable sources, and professional responsibility in journalism.
- Used climate and environmental reporting examples to connect media ethics concepts with real-world field reporting.

PROFESSIONAL JOURNALISM EXPERIENCE

Inside Climate News - United States

Jun-Sep 2026

Summer Fellow / Montana Reporter

- Reported on wildfires, wildfire smoke and public health, mining, and other environmental issues in Montana.
- Developed climate and environmental stories using field interviews, scientific sources, public records, data, and on-the-ground reporting.
- Connected local environmental issues with broader climate, health, and community impacts.

Reuters News Service - Bangladesh

2017-Present

Freelance Journalist

- Pitch and report climate and environmental stories using field interviews, research, photography, and multimedia reporting.
- Cover climate vulnerability, environmental impacts, and affected communities for international audiences.

Senior Investigative Reporter

- Reported extensively on climate change, river erosion, environmental degradation, vulnerable communities, and environmental justice.
- Conducted field reporting across coastal, remote, and climate-vulnerable areas of Bangladesh.
- Produced investigative and public-interest reporting on telecommunications, corruption, public policy, business, and major national issues.
